Quality options

1-click

Download & share

Everything you need to record

1 Screen + Mic

Capture any screen, window or tab with microphone and system audio mixed in.

2 Webcam Bubble

Overlay your camera on the recording — perfect for tutorials and demos.

3 Draw on Screen

Annotate live with colored pen strokes while you record.

4 Trim & Export

Cut clips and export as WebM or MP4, all inside your browser.

5 Meeting Ready

Optimized for Zoom, Google Meet and Teams with tab audio capture.

6 Chapters & Shots

Drop chapter markers and grab PNG screenshots mid-recording.

Private by design

Your recordings never leave your device. No uploads, no cloud, no tracking — everything is processed locally in your browser.

Works in Chrome, Edge and other modern browsers on Windows, Mac, Linux and ChromeOS.

Record in 4 simple steps

1

Choose what to share

Pick your full screen, an app window (Zoom, Meet, Teams) or a browser tab.

2

Set your options

Toggle microphone, webcam bubble, quality (720p / 1080p / 60fps) and countdown.

3

Hit record

Draw, add chapter markers and take screenshots while you record.

4

Trim & download

Cut your clip, export as WebM or MP4, and share it anywhere.

Made for

- Teachers & course creators
- Remote teams & standups
- Support & bug reports
- Sales demos & pitches
- Students & presentations
- Developers & QA

Quick answers

Is it really free?

Yes — every feature, no paywall, no watermarks.

Do I need to install anything?

No. It runs entirely in your browser.

Where are my videos stored?

On your device only. Nothing is uploaded.

Can I record Zoom or Google Meet?

Yes — select the meeting window or tab with audio.

Start recording in seconds

Open Moyan Recorder in your browser — no sign-up required.
